**POULTRY GUARD™**  
 LITTER AMENDMENT

*New Poultry Guard™ Litter Amendment is a unique activated clay that delivers consistent ammonia control without the handling inconvenience associated with other poultry litter treatments.*

Unlike these other treatments, Poultry Guard Litter Amendment is easy and convenient to apply and needs no incorporation or activation. Fewer application variables mean more consistent performance. In addition, Poultry Guard can be applied up to five days before bird set, whenever it's convenient for the grower.

**Using Poultry Guard Litter Amendment Is As Simple As...**

**A**pply  
 Simply spread over poultry litter.

- No incorporation
- No moisture activation
- No complicated instructions for heating and ventilation in conjunction with application

**B**ird Set  
 Poultry Guard can be applied when it's most convenient, up to five days before bird set.

- No application timing headaches between clean out and bird set
- No last minute application after equipment has been lowered

**C**ontrol Ammonia  
 Poultry Guard will deliver immediate and long-term ammonia control and give birds a healthier growing environment.

- No more dangerously high levels of ammonia to stunt growth

**You be the judge! We are confident this litter amendment will improve your poultry and your profits.**
