Daily National Grain Market Summary

St. Joseph, MO
Wed Apr 26, 2000

USDA-MO Dept Ag Market News
Daily National Grain Market Summary

Grain and soybean bids were slightly lower as rain remains in forecasts across the Midwest, export sales are slow, and early corn planting pro-gressing. Wheat 1 to 5 cents lower. Corn 1 to 4 cents lower. Sorghum 4 to 5 cents lower. Soybeans steady to 4 cents lower.

Export sales continue slow this week for all commodities despite a few orders the past couple of days. Large world supplies and good crop conditions, weighed on wheat bids.

Corn bids lost most of yesterday's gains as forecasts call for some moisture in Corn Belt areas over the next week. Crop planting, however, continues to move forward with indications that up to 50 percent of the crop could be planted by Sunday night in some key states.

Argentina's soybean crop is reported to be around 15 percent harvested and Brazil is getting close to 80 percent complete. These are both pressuring bean bids lower. Very slow export sales so far this week for beans also added weakness along with lower wheat and corn bids.
