Attention Dairy, Swine & Poultry Producers!
New Products Now Available...

With the addition of our new soybean processing facility, we now offer these products to meet your nutritional needs. Manufacturing these products ourselves allows us to utilize locally grown soybeans and support our local agricultural community!

GOLDEN PRO 46 XP
This natural, mechanically extruded and expelled soybean product is experiencing great acceptance with local dairymen. A course golden colored meal with a 6% fat content, Golden Pro 46 XP is extremely palatable. Golden Pro 46 XP is a natural way to bring the value of high by-pass protein into diets that require a lower fat level.

GOLDEN MEAL 40
An 18 percent fat content along with a 40 percent crude protein makes this mechanically extruded meal product a valuable component in a variety of rations. Full fat content gives you a high level of digestible energy, while high temperature extruding ruptures the oil cells for better nutritional absorptions.

CRUDE SOYBEAN OIL
A product of Keystone's expelling process, this oil can be used in a wide variety of on farm applications. A natural alternative to animal fats, this oil provides needed energy in various rations.

To make these products available, and to help you utilize your home raised soybeans
Keystone Mills announces its

Soybean Exchange Program
As manufacturers and distributors of Golden Pro 46 XP and Golden Meal 40, we are anxious for you to try our products. We are offering a soybean exchange program featuring these quality nutritional products.

KEYSTONE MILLS

16 FERTILIZER

FOUR SIMPLE STEPS TO SUCCESS

Step 1 Farm For Profit Step 1 SOIL MANAGEMENT

ACHIEVE
• Contains nutrients and feeders which aid in sustaining microorganisms in the soil

REMEDY
• Contains nutrients and micronutrients which aid in sustaining microorganisms in the soil

TANK MIXING
STEP 2 PLANT NUTRITION & STEP 1
We have found be adding 12.8 oz. of Remedy and a small amount of Achieve per acre to the recommended amount of Farm For Profit Step 2 True Solution Starter Fertilizer and applying directly on the seed or in the seed cradle we got outstanding results

Step 2 Farm For Profit Step 2 PLANT NUTRITION

FARM FOR PROFIT TRUE SOLUTION STARTER FERTILIZER

- Near neutral pH
- 100% available
- Root zone placement
- Low salt index
- Foliar Feeding

Farm For Profit has established their own standard for quality. Unlike many liquid fertilizers Farm For Profit True Solution Starter Fertilizer is a solution. It is not just particles suspended in liquid. Each drop contains the exact N-P-K ratio of the standard formulation. Farm For Profit liquid fertilizer is consistent and stable and won't settle out. It handles easily. It can be stored indefinitely. When it is applied, it flows evenly and cleanly. Farm For Profit True Solution Starter Fertilizer meets our standard for quality.

Step 3 Farm For Profit Step 3 VEGETABLE OIL

- 1 Encapsulates the chemical
- 2 Helps generate uniform droplet size
- 3 Greatly reduces chemical evaporation
- 4 Reduces chemical drift
- 5 Increases the coverage because of its spreading and sticking ability
- 6 Reduces chemical wash off
- 7 Gives you better control of the chemicals

One of Farm For Profit's main concerns is the level of soil and water pollution found today. Our goal is to remove as much petroleum base material and farm chemical from the soil as possible. Farm For Profit Step 3 Vegetable Oil gives us a means to reduce the level of both petroleum base materials and farm chemicals.

Step 4 Farm For Profit Step 4 TRAINED FIELD PERSONNEL

The Farm For Profit Authorized Distributor or Dealer in Your Area Will

- Explain the total Farm For Profit program to you
- Explain the best fertilizer program for your operation
- Suggest ways to improve the efficiency of your chemical program
- Explain to you what other farmers have been doing to cut their operating expenses while maintaining or increasing their production output

*Farmers Helping Farmers
That's what Farm For Profit is all about!*
