## Maryland DHIA Report

Misty Dell Acres

The March Dairy Herd Improvement information for dairy herds from the DHI processing center in Provo, Utah. The list includes herds from Maryland, Pennsylvania, and West Virginia. The information is listed by herd name, county association, number of cows in the herd and the average production per cow in the herd based on Energy Corrected Milk (ECM). ECM combines milk production and components.

The ECM formula is: (7.2 x lbs. protein) + (12.95 x lbs. fat) + (.327 x lbs. milk). To be included, the herd must have 10 cows averaging 65 pounds or more of ECM per cow, per day. All herds reported are on official DHI or DHIR test. Also listed are the top ten herds in Maryland for the Brown Swiss, Guernseys, and Jerseys, and the top

seven herds for Ayrshires.

MARYLAND CO. DHIA					
Herd Name C	ows in Herd	ECM	Herd Breed		
	Adams, PA	COM	Dieeu

## Shaping the future with 4-H and FFA.

Agri-Finance
Department is
proud to support 4-H
and FFA members and
programs. We believe
preserving the family
farm is one of the
most effective ways to
ensure a better future
for everyone. So First
Union is committed to
working with young
people and supporting
their goals.

ith guidance and encouragement, they will develop the skills and values they'll need to be successful in farming or wherever their lives take them. And their achievements will benefit us all.
