Model 2345
9 Ft. Cut In Stock

And 10 Ft. Model
DC2365

Long hood for less wind turbulence for cleaner cutting in thin crop stands.

A Gehl disc mower conditioner delivers exceptional cutting and conditioning, even in your most difficult crops and conditions.

Rugged high-speed cutting discs, spinning at 3,000 rpm, easily slice through down and tangled crops or dense wet undergrowth to deliver a clean cut.

The cut crop is delivered to Gehl's specially designed intermeshing rubber conditioning rolls for thorough, yet gentle crop conditioning. They'll condition your crop for fast drying.

ONLY FROM GEHL
The gear driven cutterbar (outlined in white) is protected. Gehl shields the cutterbar from rocks or other field obstructions with full-width skid shoes

Easily replaceable disc drive assemblies. Drive stations can be removed individually for quick servicing. Bearings are sealed in grease. The patented Protectadrive™ system protects the cutterbar gear train from damage in the event of disc contact with major field obstacles.

MODEL 2412 DISC MOWER CONDITIONER

The New Swing Frame
Gehl 2412 Disc Mower is
Ready For Delivery

****Almost 12 ft. Cut!**

Cut Your Fields Down To Size!

Gehl swing-frames give you the capacity and maneuverability of a self-propelled mower conditioner at a pull-type price plus the advantages of high speed disc cutting technology

- Nine disc cutterbar delivers 11-foot 7-inch cut.
- Wide conditioning rolls for uniform, fast drying.
- Full-width skid shoes protect the cutterbar.
- Simple drive system for more reliability.
- Change from windrow to swath in seconds - without tools.
