WE SHIP UPS DAILY

NEW JOHN DEERE ROTARY CUTTERS

- Double-decker design is twice as strong as cutters with a single deck.
- The clean bottom deck promotes better airflow for better cutting/distribution.
- The top deck is domed. Water and grass roll off, preventing water buildup and rust.
- Available in 5- to 14-foot cutting widths, for mid- and heavy-duty applications.

TWICE AS STRONG - Units In Stock 4' to 20'

EXCLUSIVE SHEARBAR PROTECTION COLLISION INSURANCE

Shearhubs, an exclusive John Deere feature, are standard equipment on all rotary MoCo's. Should the cutterbar receive a severe impact - from a rock, tree stump, or worse - the hub shears, protecting the inner gears. A shearhub costs about \$40 to replace, and can be carried in the field. Compare that to the cost of repairing or

replacing a complete cutterbar assembly on another machine. Then visit us for details. We can help make sure you're covered.

- JD 720 9'9" Cutting Width
- JD 925 9'9" Cutting Width
- JD 935 11'6" Cutting Width
- JD 945 13' Cutting Width
