New Products Now Available

*** Benefits of Fiberglass Wheels ***

- Very Low Maintenance Costs: Under normal use the only maintenance costs will be tightening or replacing the tire or rubber. No expensive parts to replace.
- High Performance Regardless of the Elements: Wheels stay tight even in hot, dry conditions - No more loose rattling spokes - ever!
- Rugged Heavy Duty Design: It takes a major accident or impact to break or twist these wheels.
- Hard Durable Surface: Resists scuffs and scratches, paint job stays shinier.
- Easier Cleaning: Spokes have all rounded corners, no tight spots for dirt to get into.

*** Benefits of Fiberglass Springs ***

- Low Weight: A fiberglass spring weighs 22 lbs. less than a steel spring. 44 lbs. less weight on the carriage.
- Durable One Piece Design: No bolts to give out or wear.
- Better Performance on Heavy Loads: The more weight, the better the ride, will not go flat and bottom out.
- Easier Spring Adjustment: Easier cleaning - no rust stains running out between the plys. Part will not blister or peel off.
- Superior Ride and Performance: Superior ride and performance.

Install these wheels and springs on your next
 new carriage or replace your old ones.
