15'7" cut. Superior conditioning.

The NEW 1441 Discbine® disc mower-conditioner uses 12 discs to make a wide 15'7" cut through your heaviest, toughest crop conditions. You'll clear large fields fast and condition crops thoroughly for fast drydown.

- The advanced independent modular design uses individual disc modules with sealed gear cases connected by independent drive shafts for easy maintenance and repair.
- 102" chevron-design intermeshing rubber rolls provide high capacity and gentle, even conditioning.
- Standard swivel hitch tongue gives you exceptional maneuverability to make tight headland turns and over-square corners.

Two jobs, one tool: It's a tedder and a rake

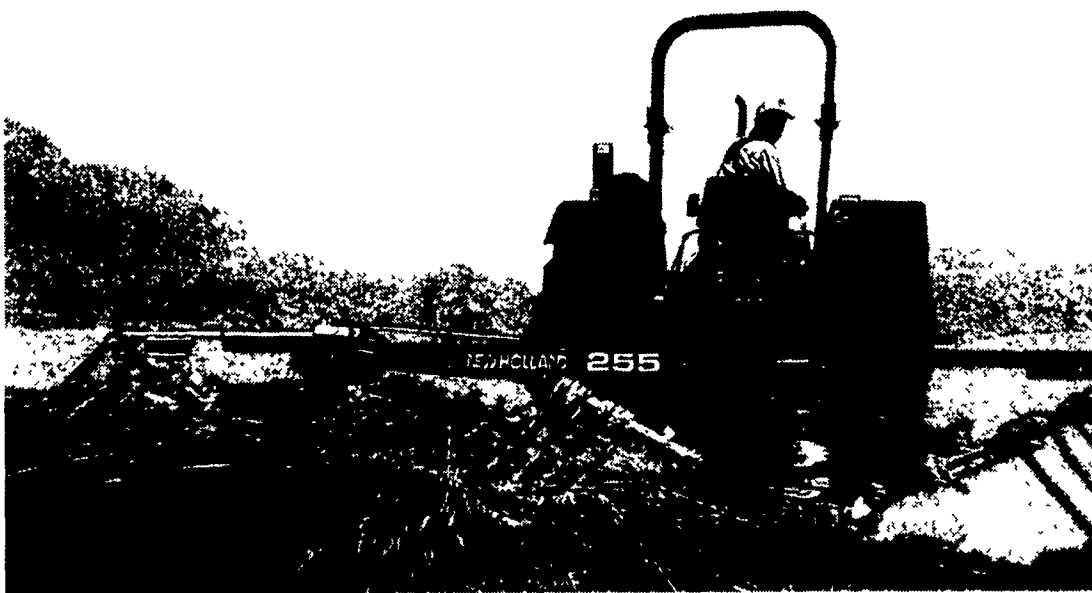

The Model 255 rake tedder is a flexible machine — it's the tedder that also rakes.

- Rake a swath into a windrow
- Rake two windrows into one
- Turn windrows for faster drying
- Move crop away from fences or borders
- Ted a 10½-foot area to fluff up wet, matted-down crop for quick drying

And you can change the "255" from one function to another without tools!

NEW HOLLAND

Big capacity. Uniform chop.

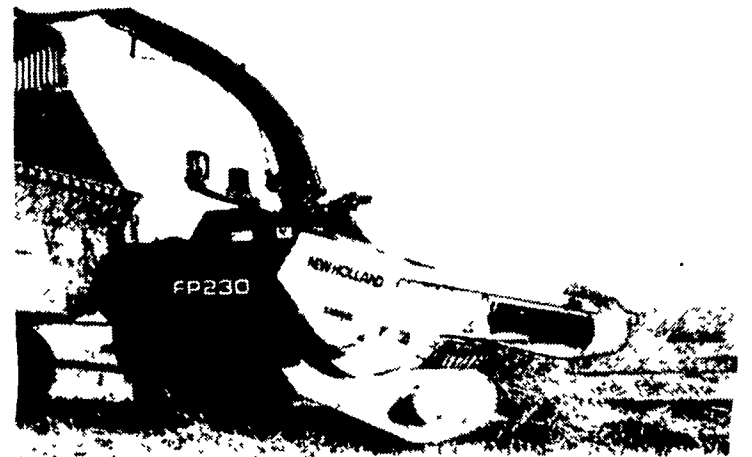

No other forage harvesters give you best-in-class capacity and chop quality. Only the new FP230 and FP240 forage harvesters from New Holland.

- Rugged 1,000-rpm driveline matches higher-horsepower tractors. Use the FP230 with tractors up to 225 PTO hp and the FP240 with tractors up to 300 PTO hp.
- Massive 12-knife cutterhead produces a uniform length of cut from 3/16" to 1-5/16" with four knives.
- Knife sharpening and shearbar adjustment are easy to keep cutting performance at its best.
- Optional on-board Crop-Pro™ crop processor makes feed more digestible and saves the expense and time of using a stationary roller mill.
- Optional Metalert® III electronic metal detector gives you peace of mind.

Choose one of the forage harvesters that deliver what matters—big capacity and uniform chop. See the FP230 or FP240 today.

NEW HOLLAND

Put quality silage under wraps

New Holland round bale wrappers are the low-cost alternative to traditional silage storage—they seal your silage bales in "mini silos." You can harvest silage during peak feed quality, store it with greater flexibility, and feed it more efficiently with less waste.

Choose from two models:

- Model B27P is an economic utility wrapper for medium-volume silage producers
- Model B37P is ideal for custom harvesters or operations wrapping large volumes of bales

Both offer a side-mounted lifting arm, three-belt turntable, two large side-support rollers, and cable controls. The B37P is available with computer controls.
