KEYSTONE MILLS
CUSTOM MIX PROGRAM
GIVES YOU OPTIONS IN FEEDING
Your Dairy Herd
Call us today for a feeding program built to fit your Dairy Herd and your Production Goals.

For maximum performance and income over feed cost, rations should be balanced to provide the optimum levels of degradable and undegradable protein, nonstructural and structural (fiber) carbohydrate as well as minerals and vitamins. This allows for maximum utilization of the rumen microbes and total ration efficiency. Because your needs may be different from your neighbor's, we adjust the following nutrients and ingredients to fit your needs and goals

• Amino Acids	• Calcium	• Multi-Protein Sources
• Protein	• Phosphorus	• Added Animal Fat
• By-Pass Protein	• Salt	• Rumen Inert Fats
• Energy	• Vitamins & Trace Minerals	• Buffers
• Fiber	• Organic Trace Minerals	• Yeast
		• Zinpro
