

Conflict Prevention Topic At New Training Program

HARRISBURG (Dauphin Co.)— Valuable training opportunities are available throughout the state of Pennsylvania during the month of June for Conservation District Directors and their staff. The training program focuses on improving public affairs, preventing conflict, and

legal implications for conservation districts. The training programs are offered in the following three locations: June 22nd, Holiday Inn, Altoona; June 28th, Perkins Restaurant, Lewisburg; and, June 19th, Farm and Home Center, Lancaster.

All meetings are held from 8 a.m. until noon. The first half of the morning is dedicated to preparing how to handle public/producer/regulatory issues and conflict. William Green Associates will present how to prepare an effective public relations plan. The second half of the program explores legal implications training on the decision making process. The program will be case specific and deal with real-life situations and issues.

The training programs are sponsored by Lancaster, Chester and Berks Conservation Dis-

tricts and PennAg Industries Association. If you have any questions regarding the program, please contact PennAg In-

dustries Association at (717) 651-5920. Please come prepared for a very engaging and thought-provoking seminar.

"Quality Curtain Systems"

ENGINEERED FOR NORTHEAST AGRICULTURAL & INDUSTRIAL BUILDINGS

Featuring...

Automatic Curtain Controllers

Our quality components offer benefits and value unmatched by other systems.

- * Suspension systems are heavy duty, yet economically priced. All primary & secondary pulleys have lifetime warranty. Galvanized aircraft cable 7x19 used on all suspension lines.
- * Fabric materials are proven to withstand extreme weather conditions of the northeast. Choices include insulated R3 or R4, un-insulated 13 oz vinyl or un-insulated transparent polyethylene with 10x10 nylon scrim.
- * Double hem pipe is thick wall EMT 1 02 O D. (No coupler req.)
- * Lift line anchors are made of 11 ga galvanized steel.
- * Framed high grade polygrid or galvanized welded wire provides a smooth surface for system to operate with less fabric wear.
- * Conventional System openings available from 3' to 8' height.
- * Roll up divider system openings available up to 16' heights.
- * Fully Automatic electric winch thermostal controlled or top quality two speed manual winch.
