Tire Size: 30.5 x 32 12 ply
Unload Height: 12 ft 7 in
Low Profile: Only 9 ft 6 in (wagon ht)

MODEL 840 (825 BUSHEL CAPACITY)

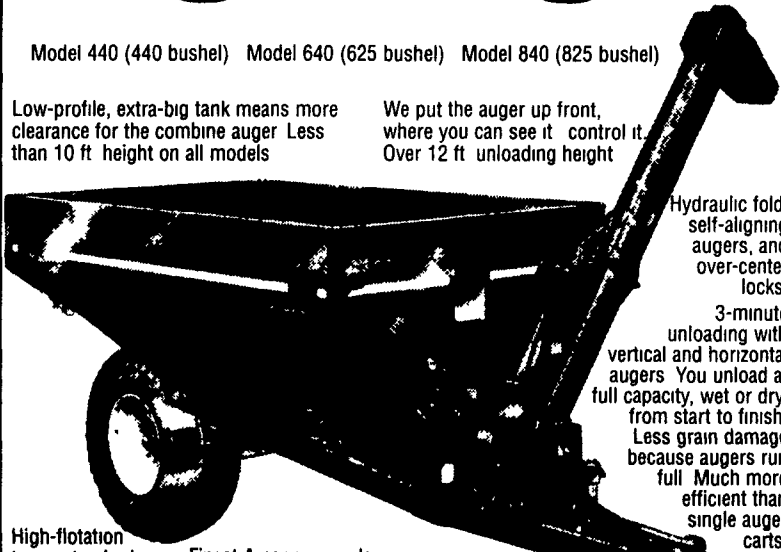

Call us today for the real quality numbers in moving grain.

How KINZE designed the world's best Auger Wagon.

Model 440 (440 bushel) Model 640 (625 bushel) Model 840 (825 bushel)

Low-profile, extra-big tank means more clearance for the combine auger. Less than 10 ft height on all models

We put the auger up front, where you can see it control it. Over 12 ft unloading height

Hydraulic fold, self-aligning augers, and over-center locks
3-minute unloading with vertical and horizontal augers. You unload at full capacity, wet or dry, from start to finish. Less grain damage because augers run full. Much more efficient than single auger carts

High-flotation tires standard equipment! So you keep moving, even in soft, greasy fields

Finest American-made, industrial grade components money can buy, with chain oiler and grease bank for easy maintenance

2 1 sprocket reduction drive system. Especially important when unloading high-moisture grain

Call your nearby KINZE dealer today and discover the "quality force" in moving grain.
