

Reaching New Heights Depths

4"- 6" ~ Disc Harrows

HARDPAN 10"-12"

Why is the DMI eco-til 2500 with No-Till shanks from Hooper becoming the ideal tillage tool for achieving greater yield and profit potential? Because the DMI eco-til 2500 breaks through the hardpan unlike conventional tillage tools. The result? The DMI eco-til 2500 with patented tiger-points provides excellent fracture of compaction to increase water absorption and air exchange for better nutrient flow up and down the soil profile and root system. This process provides warmer soil in the spring for earlier planting plus it delivers more uniform crop germination. *And using the DMI eco-til 2500 with No-Till shanks results in even less soil disturbance than other deep tillage shanks.*

The **DMI** eco-til 2500 Advantage

- Controls Compaction
- Increases Water Absorption and Air Exchange
- Provides Warmer Soil in Spring for Earlier Planting
- Achieves More Uniform Crop Germination
- Greater Yield and Profit Potential
