

No Other Forage Harvester Gives  
You Best-In-Class Capacity And  
Chop Quality

**New Holland Pull Type  
FP230 & FP240**

The best-selling line of forage harvesters just got better with the introduction of two new pull-type models, the New Holland FP230 and the FP240, designed and built to deliver best-in-class capacity and chop quality. Both models feature a rugged 1,000-rpm driveline, designed for today's higher horsepower tractors. The FP230 can be used with tractors up to 225 PTO hp; the FP240 with tractors up to 300 PTO hp.

For row crop applications, the new three-row 3PN features new spacing from 28" to 32"

**B37P Round Bale Wrapper**

Expand your forage production system with a New Holland round bale wrapper. By adding a round bale wrapper to your current haying system, you can put up high-quality forage at a fraction of the cost of traditional silage systems.

Wrapping adapts well to any haying system. Both twine-tied and net-wrapped bales can be wrapped for silage. Along with being a low-cost silage investment, wrapping eliminates a need for shed storage space for your hay.

**The Most Reliable, Most Durable Spreader  
You Can Buy**

New Holland box spreaders are the best-selling spreaders in the industry - and for good reason. Known as "Strong boxes," New Holland box spreaders are engineered to perform and built to last. They have the toughest floors and sides of any spreader available. And they're made of special steels that are more corrosion-resistant and stronger than ordinary steels.

**Every New Holland 'strong box' comes with Bonded Protection**

Here's something you won't find with competitive models - a no-nonsense, no-hassle guarantee on the sides and floors. It's standard on every New Holland box spreader.
