**THE ADVANTAGES OF ROASTED CORN**

- \* **Earlier Harvest** - Our roaster will dry corn down eight to ten points of moisture.
- \* **Higher Digestibility** - Research studies show that roasted corn is more digestible than high-moisture corn.
- \* **Purer Feed** - Our wet growing season has the potential of producing mold spores in standing corn that is harmful to livestock, swine and poultry. Our flame roaster can effectively remove mold spores.
- \* **Drier Total Ration** - With less fermented feed. Supplementing the hay and corn silage diet with dry corn aids better rumen health.
- \* **Greater Profits** - Dairy herds fed roasted corn advance two to eight lb. per cow in milk and improves herd health.

**CUSTOM MIX PROGRAM**  
 GIVES YOU  
**OPTIONS IN FEEDING**  
 Your Dairy Herd

**Call us today for a feeding program built to fit your Dairy Herd and your Production Goals.**

For maximum performance and income over feed cost, rations should be balanced to provide the optimum levels of degradable and undegradable protein, nonstructural and structural (fiber) carbohydrate as well as minerals and vitamins. This allows for maximum utilization of the rumen microbes and total ration efficiency. Because you needs may be different from your neighbor's, we adjust the following nutrients and ingredients to fit your needs and goals

- Amino Acids
- Protein
- By-Pass Protein
- Energy
- Fiber
- Calcium
- Phosphorus
- Salt
- Vitamins & Trace Minerals
- Organic Trace Minerals
- Multi-Protein Sources
- Added Animal Fat
- Rumen Inert Fats
- Buffers
- Yeast
- Zinpro
