

PREPARE™ HER FOR THE JOB MARKET.

A dry cow may be off the production line, but properly fed and cared for, she can produce 1,000 to 2,000 lbs. more milk in the following lactation. Purina® Prepare™ Dry Cow Supplement is nutritionally-blended to help dry cows achieve the optimum calving weight and body condition. That can mean a healthier cow that cycles and rebreeds on schedule. Ask Purina how you can increase production potential in dry cows and reduce calving problems. Because the time to Prepare is now.
