Four Ways We Deliver More...
#1 More By-pass, More Milk - Toasted Beans offer consistently higher by-pass protein cows need to make more milk
#2 More Production per Protein Unit - Toasting provides consistently superior protein release from every bean, without variations that can tie up amino acids
#3 More Rumen-Friendly Source - Toasting is gentle. Digestibility is improved. Energy (oil) is retained inside the bean to minimize impact on rumen environment
#4 More of the Taste Cows Love - Toasted is Tastier! Cows eat every bean

GIVES YOU OPTIONS IN FEEDING
Your Dairy Herd
Call us today for a feeding program built to fit your Dairy Herd and your Production Goals.
For maximum performance and income over feed cost, rations should be balanced to provide the optimum levels of degradable and undegradable protein, nonstructural and structural (fiber) carbohydrate as well as minerals and vitamins. This allows for maximum utilization of the rumen microbes and total ration efficiency. Because your needs may be different from your neighbors we adjust the following nutrients and ingredients to fit your needs and goals.
• Amino Acids • Calcium • Multi-Protein Sources
• Protein • Phosphorus • Added Animal Fat
• By-Pass Protein • Salt • Rumen Inert Fats
• Energy • Vitamins & Trace Minerals • Buffers
• Fiber • Organic Trace Minerals • Yeast
