WANTED: Used Harvestores®

Not Affiliated With A O Smith Harvestore®

"No auger mixer can process and mix dry long hay like a Roto-Mix mixer can."

-Jim Osborn, Queen Acres Farm, Keymar, MD

"When I do the feeding I like to load the hay into the mixer early in the mix. That allows the hay to be processed to a shorter fiber length. When Jim does the feeding he loads the hay in last, he likes to see a longer fiber. Either way the cows eat it. We clean very little out of the feed bunk."

- J.W. Wothlie,
Farm Manager

Queen Acres Farms is the home of the 7th ranked Jersey herd in the nation, milking 110 cows.

- Using Roto-Mix Model 354 stationary mixer, powered by two 10 hp single phase electric motors. Purchased from Lapp's Barn Equipment in 1997 to replace a 1 yr. old, 4 auger mixer.
- Mixing TMR, 46 lbs. per cow per day, including 5 to 6 lbs. of dry baled hay.
- High herd average for milk production - 19,600 lb, with high protein test and high butterfat test - 5.1%
