

Thanks and congratulations to T & A Farms, Needmore, Fulton Co., PA on the recent construction of their 62 x 19 expandable Slurrystore® System!

Allen (left) and Tom Morton

When Tom and Allen Morton of T & A Farms were planning a waste storage system, they decided on a Slurrystore System from Penn Jersey. The flexibility of the system allowed them to construct the tank on the other side of a state road from the dairy barn, to allow room for future expansion of the barn. They were also pleased with the pumping and center agitation systems available.
