Binkley & Hurst Bros. Inc. Offers Quality Case IH

New Case IH Grain Drills In Stock For Quick Delivery! The Goal: Uniform Seed Distribution

If you want precision seeding, you need a new Case IH 5300 Series Grain Drill from Binkley & Hurst Bros. No matter if you plant small grain or soybeans!

The Game Plan: Case IH 5300 Grain Drill
Designed for precision planting in solid or extra-narrow row patterns to maximize yields.

- Exclusive diagonal-lipped fluted-roll seed cups ensure uniform seed distribution.
- Close-coupled maneuverability.
- Large-capacity seed hopper to cover extra acres between refills.

A Special Feature For All Case IH Grain Drills
Fluted Roll Feed Cup Assemblies Save Seed and Save Time. A known fact that Case IH die-cast zinc alloy feed cups are superior to other competitive brands. Long life comes from oil-impregnated molded sintered metal liners act as a positive bearing surface to surround and support the fluted roll.

Fluted roll is precision-molded and won't freeze up during the idle periods.

Shut-off block is molded of steel and delivers consistent cup to cup seeding accuracy. Exclusive tapered metered edge at the bottom of the feed cup provides unexcelled seeding accuracy, even seed flow, and more uniform spacing.

Large throat clearance allows the handling of big seeds and prevents seed damage.

For replacement parts for your existing drill, buy Case IH quality from our Parts Dept. Now! Precision engineered to fit your grain drill exactly!

And you get more than a precision grain drill. You can count on us for genuine, value-priced parts, professional and reliable service support, and flexible financing.

For the best in grain drills, see Binkley & Hurst Bros. Inc. for sizes in stock.
