Got Corn? Why worry about storing your high moisture corn this year when you can put it in the bank?

Now you can get more energy, improved palatability, and better digestibility from corn.

WEAVER'S TOASTED FLAKED CORN
 High density energy value for the dairy ration

- Time-tested, controlled hot air process maximizes quality and bin life.
- Toasting starts the digestive process, so your microbe gets more nutrients.

Capitalize on our size, our state-of-the-art drying and processing facilities, our premium toasting and flaking for superior results, and our efficient grain delivery system.

When you bring your wet or dry corn to us for TOASTING, we store it FREE and deliver what your herd needs throughout the year.

Call: **717-355-BEAN** for details.

Get Weaver's.
