New Products Now Available

The Advantages of the Fiberglass Wheels are:

- Fiberglass Wheels**
- Very Low Maintenance Costs** - These wheels are built to last a lifetime and beyond without ever having to replace any parts on the wheels under normal use. The only maintenance required will be tightening up or replacing the tire or rubber.
- High Performance Regardless of the Elements** - Wheels stay tight even in hot, dry conditions - No more loose rattling spokes - ever!
- Rugged Heavy Duty Design** - It takes a major accident or impact to break or twist these wheels.
- Hard Durable Surface** - Resists scuffs and scratches, paint job stays shinier.
- Easier Cleaning** - Spokes have all rounded corners, no tight spots for dirt to get in.

The Advantages of the Fiberglass Springs are:

- Fiberglass Springs**
- Lightweight** - A fiberglass spring weighs less than a steel spring. 144 lbs. less weight on the carriage.
- Durable One Piece Design** - No bolts to give out or wear.
- Better Performance With Heavier Loads** - The more weight, the better the ride, will not go flat and bottom out.
- No Rusting Ever** - Paint will not blister or peel off. No rust stains running out between the plys, providing a nice appearance and much easier cleaning.
- A Lifetime Guarantee** - If these springs ever break under normal use, we will replace them free of charge.
- Stabilizer Kits - Now Available** - For a smoother ride and less bounce.

★ Install these wheels and springs on your next new carriage or replace your old ones ★
