## Not All Power Shuttle Transmissions Are Created Equal.

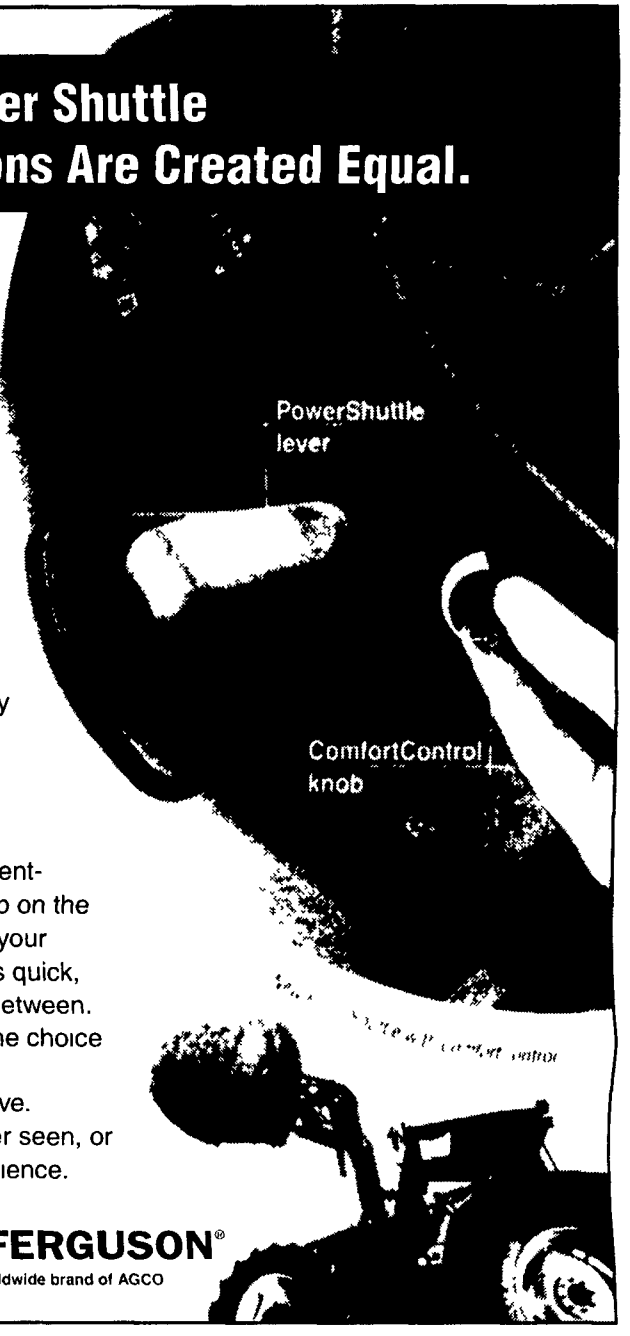

**Only MF 4200 Series Tractors Offer PowerShuttle Transmissions With ComfortControl™.**

Climb aboard a 55-99 hp MF 4200 Series tractor, and you're uniquely and completely in control of shuttle operations. With ComfortControl, you determine the rate of PowerShuttle engagement—simply by turning a knob on the steering column. Make your forward/reverse shuttles quick, gentle or anywhere in between. With ComfortControl, the choice is yours.

See us for a test drive. Nothing else you've ever seen, or felt, will equal the experience.
