### The JUG Livestock Waterer Cleans Itself - so you don't have to!

The JUG's Feed-Trap catches debris and keeps it out of the reservoir.

No balls, flaps, or lids to get in the way

JUG Model 202 1-hole and 4-hole models also available

**The JUG'S self-cleaning design**  
The JUG'S Feed-Trap™ design prevents feed and other debris from entering the reservoir tank. Each time the animal drinks, any debris in the Feed-Trap is removed. The tank stays clean!

**No Algae - No slime**  
Since the JUG's reservoir is light-tight, no algae will grow in it. That means no slime build-up.

**Clean Water = productivity**  
You know that animals will drink more when the water is clean. And more water consumption yields more productivity.

**Tough, long-lasting construction**  
The JUG is made of tough, roto-molded plastic. It stands up to abuse dished out by livestock. It won't chip and pit like concrete.

Buy your JUG today!
