Do You Suffer From Fibromyalgia?

When I was introduced to New Image I was 50 pounds over weight and suffered from fibromyalgia. I was so depressed and in pain the majority of the time. I was taking steroids and four other medications, one of which made me so 'groggy' I could hardly get out of bed and another gave me ulcers. I began taking New Image secretly because I thought my family would make fun of me. After a month, I discovered I had lost eight pounds and seven inches. Wow! Then it dawned on me, I was feeling better, the depression and pain were gone. In two months I was off all medications. "I feel SUPERIFIC!" Now, two years later I have lost 43 pounds and 30 inches. Thank you New Image for giving me a new life again.
