Northeast Broiler Fryer Parts Part I

ATLANTA, GA.

November 29, 2000

Report Supplied By USDA

Midweek trucklot buying activity was extremely light as dealers eyed the market with caution and continued to limit purchases to most immediate needs. Offerings of boneless-skinless breasts were fully adequate to ample, and bone-in breasts were readily available. Dark meat items were more than sufficient, particularly leg quarters and drumsticks. Wing movement remained good keeping product well cleared to closely balanced. Movement into retail and distributive channels was slow and disappointing. The market tone was fully steady on wings, cautiously steady to instances weak on the balance.
