THE ADVANTAGES OF ROASTED CORN

- * **Earlier Harvest** - Our roaster will dry corn down eight to ten points of moisture.
- * **Higher Digestibility** - Research studies show that roasted corn is more digestible than high-moisture corn.
- * **Purer Feed** - Our wet growing season has the potential of producing mold spores in standing corn that is harmful to livestock, swine and poultry. Our flame roaster can effectively remove mold spores.
- * **Drier Total Ration** - With less fermented feed. Supplementing the hay and corn silage diet with dry corn aids better rumen health.
- * **Greater Profits** - Dairy herds fed roasted corn advance two to eight lb. per cow in milk and improves herd health.

SWEETCAKE 16NU

FEED SUPPLEMENT BLOCKS FOR THE LIVESTOCK INDUSTRY

- High Natural Protein • No Urea • Fat Enhanced
- Balanced Supplementation • Safe For All Livestock Classes

Sweetcake Advantages

- Aids in making the best use of your available forage
- Promotes a more even herd consumption, with 24-hour availability to all cattle
- Reduces labor to save you money and give you more time to make important management decisions
- Supplies much-needed vitamins and minerals that forage lacks to help your cattle perform to their genetic potential
- Supplies fat in most formulations to enhance energy intake

For Dairy

- Replacement heifers that grow out soundly and economically
- Body condition on dry cows so they can return to lactation, producing at the maximum potential
- Healthier herds, with essential

trace minerals that help prevent metritis, retained placenta and other health problems

- Prompt re-breeding, thanks to essential nutrients

For Beef

- Stronger, healthier calves at birth
- Heavier calves at weaning
- Cows that cycle better for improved conception rates

- Cows that milk better to raise a better calf

- AVAILABLE IN 200 LB. SIZE -
