

You Can Produce **MORE MILK** By Supplying More Water

Ritchie WaterMaster

WaterMaster has gained approval through extended use in feedlots and dairies across North America. It features heavy-wall roto-cast polyethylene one-piece body construction. Ritchie utilizes UV inhibitors so it won't pit, crack or deteriorate like concrete. A solid wall of urethane foam insulation keeps water

ice-free longer. WaterMaster options include constant flow or electric heat package with a 250 watt immersion heater and a supply line heater.

Open water encourages drinking ... Fast and easy to clean

A trough that slopes towards a clean for fast easy cleaning. Emptying, cleaning and refilling a Ritchie WaterMaster takes a fraction of the time most competitors require just to empty.

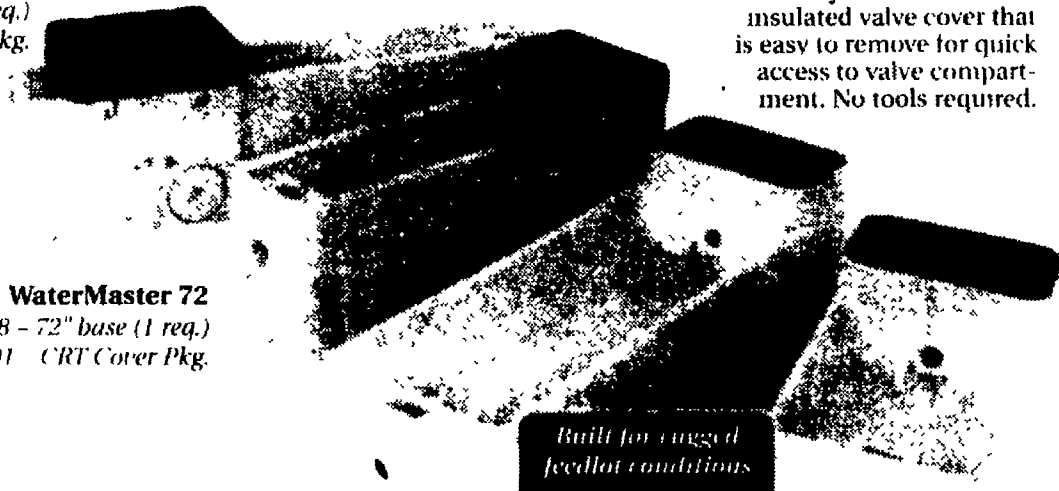

Easy to Service A well insulated valve cover that is easy to remove for quick access to valve compartment. No tools required.

Meets Grade 1 dairy requirements. Ideal for free-stall dairy operations.

Solid, structural built-in mounting holes for bolting unit securely to a cement pad.

WaterMaster 144

Part No. 16708 - 72" base (2 req.)
Part No. 16702 - CRT Cover Pkg.

WaterMaster 72

Part No. 16708 - 72" base (1 req.)
Part No. 16701 - CRT Cover Pkg.

Built for rugged feedlot conditions. Heavy duty construction.

More American farmers have installed a Ritchie than any other brand.

Any size. Any layout. Ritchie has the fountain for you. They're easy to install along fencelines or in open lots, and their big-throated valves keep water flowing fresh and clean, even during heavy demand. Heavy-duty steel and galvanized steel construction with our powder-coated baked-on finish resist corrosion. Electric heat with an adjustable thermostat keeps water ice-free. Cable heater provides additional protection to the supply line. Also available with gas heat.

Ritchie Has A Nose For Safety... and Dependable Water Delivery for Horses.

In any climate, you get safe dependable water delivery from the electric Water Wrangler or electric-free Thrifty King fountains from Ritchie. Designed to help protect your valuable livestock, corners and edges are rounded and smooth.

Plus, all our fountains have a nonmetallic float and valve with 30 years of time-tested reliability and proven resistance to corrosion and cold.

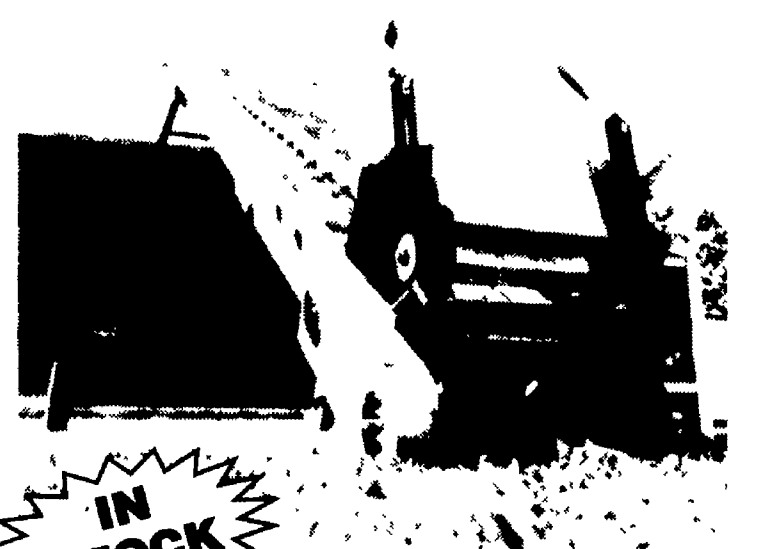

Safety and dependability, all backed by 75 years of reliable service.
