## NEW CLUSTER FREE STALLS

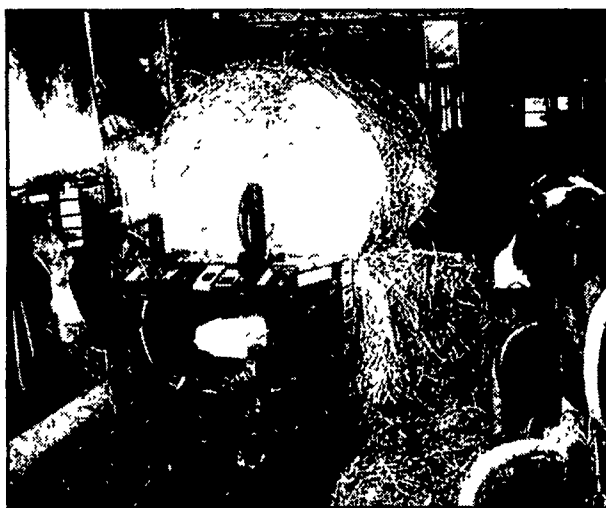

- Suspended from the barn rafters by free swinging chains to avoid cow entanglement
- Free swinging feature eliminates injury to cows and also any damage to the stalls
- Decreases the occurrence of cow bruises enhancing milk production capabilities
- Powder coated with 20 year rust thru guarantee
- Fully adjustable neck rail
- Fully adjustable brisket rail
- Available up to a 4 bed cluster
- Patented

Cluster Free Stalls are easily installed in new or remodeled barns. The free stalls "hanging" from barn rafters provide many advantages to help keep cows safe and healthy. By using suspended free stalls, cows are less likely to obtain bruises. Thus all their energy can be concentrated towards increased milk production. The design of the stall allows it to swing up, down or back out of the way of the cow. Because they swing freely, the stalls can withstand the force of animal contact. And because they are coated, they require little maintenance.

## I.H. RISSLER MFG.

### NEW RISSLER ROUND BALE FEEDERS

### ROUND BALE FEEDERS

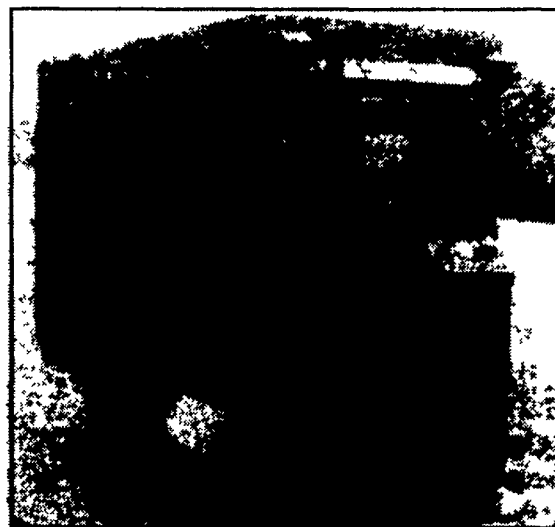

- This Machine Unrolls (Feeds) Round Bales
- Two Sizes to choose from.
  - 1 Large machine handles any size round bale good for drive-thru fence line feeding.
  - 2 Small machine handles 4x4 bales for stall barn feeding
- Full-hydraulic operation powered by quiet, efficient, air cooled engine.
- Joystick-controlled; independent, hydraulic motor drive on each wheel eliminates maintenance associated with drive chain, sprockets and bearings.
- Handles dry bales, Hi-moisture or silage bales.
- With or without Hydraulic bale loading arm.
- 3 pt. hookup or stationary unrollers available
