Farming Forecast

Saturday will bring us a partly sunny day as we will be between storm systems. As Sunday dawns, we will see sunshine, but clouds will roll in and there can be showers of rain and snow at night. This rain and snow mixture will persist into Monday, but accumulations should be fairly light. Tuesday will bring a return of sunshine as this storm plows off to our east.

The results speak for themselves. And the facts are clear. For higher yields and more silage, it pays to go with Lorsban 15G. In these evaluations, Lorsban 15G produced more than 100,000 lbs. of silage per acre than the untreated check. Plus, in evaluations done at major universities,† Lorsban 15G came through with an average yield increase of 40% over the untreated check. Think about what that can do for your bottom line. This year, go with Lorsban 15G. And fill 'em up faster.
