QUICK-START

The Pax QUICK-START™ pan feeding system grows chicks into FINISHED broilers efficiently.

Start chicks with the feeder resting on the floor and the feed pan entirely filled. The Pax QUICK-START™ pan provides easy access to plenty of fresh feed - with no accumulation of stale feed in the drop tube - attracting even the smallest chicks to begin feeding right away

ON THE FLOOR
With the feeder resting on the floor, the feed level tube is raised to present feed in the entire pan without over filling like other typical food feeders

WINCHED
When the feeder is winched the feed level tube automatically lowers to your pre-selected finishing level

SIDE BELT MECHANICAL EGG COLLECTION SYSTEM

Mechanical Nest

- Side belt design allows front access for egg collection in the event of a power failure
- Hinged closeout lid to restrict access
- Ventilated partitions allow fresh air flow through each nest
- Anti-roost guard with folded edges on all nests

Collection Table

- Choice of 1/2 or 3/4 HP motor
- Heavy steel construction - galvanized and powder painted
- Easy-to-reach variable speed belt control
- Pinch roll drive with cast iron bearings - designed for easy maintenance and servicing

Multi-Deck

Layer Cage System

Available in 2,3,4,5,6,7 & 8 decks

POULTRY GUARD™

LITTER AMENDMENT

New Poultry Guard™ Litter Amendment is a unique activated clay that delivers consistent ammonia control without the handling inconvenience associated with other poultry litter treatments.

Unlike these other treatments, Poultry Guard Litter Amendment is easy and convenient to apply and needs no incorporation or activation. Fewer application variables mean more consistent performance. In addition, Poultry Guard can be applied up to five days before bird set, whenever it's convenient for the grower.

**Using Poultry Guard
Litter Amendment
Is As Simple As...**

A pply

Simply spread over poultry litter.

- No incorporation
- No moisture activation
- No complicated instructions for heating and ventilation in conjunction with application

B ird Set

Poultry Guard can be applied when it's most convenient, up to five days before bird set.

- No application timing headaches between clean out and bird set
- No last minute application after equipment has been lowered

C ontrol Ammonia

Poultry Guard will deliver immediate and long-term ammonia control and give birds a healthier growing environment.

- No more dangerously high levels of ammonia to stunt growth

You be the judge! We are confident this litter amendment will improve your poultry and your profits.
