

Hooper & Great Plains... Precision Seeding

New for 2001

Available on 15' and 30' Models

Great Plains Precision Seeding System™

The revolutionary Precision Seeding System from Great Plains gives you the ability to singulate seed in the furrow while dramatically increasing seedbox capacity over traditional hopper-style planters. Great Plains Precision Seeding Systems are available on the 15' and 30' models and each frame is designed specifically for its width.

For almost 20 years Great Plains drills backed by Hooper's quality service and parts support have been the perfect combination for maximum productivity.

Great Plains 1005 No-Till Drill

- 7 or 7 1/2" Spacing
- 3 x 13 Center Rib Press Wheels
- Weight Bar Package
- 5/8" Wavy Turbo NoTill Coulters
- Small Seed Attachment

We Have 10' Units in Stock and Ready for Immediate Delivery.

Turbo Coulters

Great Plains Exclusive "Turbo" Coulters are a must in no-till conditions. They cut through the heaviest residue, clearing a path for the opener. The turbo coulters also put "Tilth" into cold compacted soil helping to warm it and giving roots plenty of room to grow.
