

Take a Shortcut for Faster Drydown

Introducing The New John Deere 6 Series MoCo's

Cut with a new John Deere 6 Series Mower Conditioner and see how fast your hay goes from field to feed. Our new MoCo's are packed with new features to help you fly through tough conditions and give you faster drydown.

To start, these new MoCo's offer thinner, flat-angle cutterbars that let you cut low and fast. Patented John Deere shearhub protection gives you worry-free high-speed cutting. And remember, only John Deere gives you conditioning

freedom of choice with urethane or steel rolls or impeller conditioning for unmatched conditioning performance. And we've made it easy to adjust roll spacing and roll pressure, so you can quickly change settings and get back to cutting.

The new 6 Series MoCo's are available in five models, with cutting widths from 68 to 106 inches. So stop by your John Deere dealer's store and take a shortcut for faster drydown.

JOHN DEERE

Solid. Stable. Still John Deere.
