## Lewis Carroll

Lewis Carroll is the pen name of a famous English writer named Charles Dodgson. He was born on January 27, 1832. He is best known for his books *Alice's Adventures In Wonderland* (1865) and *Through The Looking Glass* (1872).

Carroll was the son of a clergyman and the first of 11 children. At an early age, he began to entertain himself and his family with magic tricks, marionette shows and stories.

Carroll was a pioneering photographer. He especially liked to photograph children. A girl named Alice Liddell sat for some of his pictures, and Carroll used her name for his heroine, Alice, in *Alice's Adventures In Wonderland*.

Along with his two famous books, Carroll also wrote about mathematics and he wrote some funny poems. The most famous of these is "Jabberwocky."

Try this! Lewis Carroll is famous for the nonsense words he used in his poems, like "jabberwocky," "chortle" and "snark." These words are interesting because they often sound like what they mean. For example, a chortle is a combination of a snort and a chuckle. Can you make up words for the way things sound?

## American Heart Month

Staying healthy is very important. Many people today do different things to help stay healthy. They may exercise, eat special foods or get plenty of rest. This month is American Heart Month. Because the heart is such an important part of your body, it's important to keep it healthy.

Some ways you can help keep your heart healthy are by eating plenty of vegetables and fruits, exercising and playing a lot, telling your parents when you don't feel well, and by never using tobacco or drugs.

Ask your parents or teacher to talk with you about ways you can work to keep your heart healthy for your whole life!

## Dot's Right!

Starting at the car, there are 13 rows of dots heading away. Which row has the most dots?

## Who Made The Tracks?

A horse, a dog, a bear, a raccoon and a deer made the tracks you see below. Can you match up the tracks with the animal that made them?

HORSE

DOG

BEAR

RACCOON

DEER

## The Spider And The Fly

Help! The fly needs to get out of the spider's web! Can you find a way through the web without crossing the lines... and without running into the spider?

## Solve The Puzzle!

It's a rebus and a riddle, too! A rebus uses pictures instead of words. Solve the rebus!

## HIDDEN CRITTER

Color this picture to see the hidden sea creature. Use blue for blocks with the letter W, green for the letter T, pink for the letter V, orange for the letter U and brown for the letter S.

Puzzles are provided by Kidsville Publishing

Hear Ye, Hear Ye!

Have you ever noticed that your voice sounds different to you when you tape it with a tape recorder? That's because when you talk, the sound waves you hear are passing through your body. Your tape-recorded voice is actually the way you sound to other people.

**Solve The Puzzle!**  
Most shellfish are not selfish!

**Who Made The Tracks?**  
Horse, Dog, Bear, Raccoon, Deer

**Dot's Right!**  
Starting at the car, there are 13 rows of dots heading away. Which row has the most dots?

**The Spider And The Fly**  
Help! The fly needs to get out of the spider's web! Can you find a way through the web without crossing the lines... and without running into the spider?
