THE TIME IS RIGHT!

To Feed

ROASTED GRAIN

- *Its time to lower those feed prices.**
With extremely low grain prices and the modest price for roasting, your grain can be turned into a valuable feed commodity.
- *Its time to trim away those extra cost factors.**
Custom roasting on your farm... gives you the ability to feed your own grain, not someone else's.... eliminates trucking expenses. no mill charges, shrinkage, storage and handling.
- *Its time to value feeding grains that have been purged.**
Only flame roasting can effectively remove molds and reduce toxins to tolerant levels. Better herd health will... reduce veterinary and breeding bills... enhance production of milk... increase weight gains in beef and swine.

Want Milk?

Four Ways We Deliver More...

#1 More By-pass, More Milk - Weaver's Toasted Beans offer consistently higher by-pass protein. Cows need to make more milk.

#2 More Production per Protein Unit - Toasting provides consistently superior protein release from every bean, without variations that can tie up amino acids.

#3 More Rumen-Friendly Source - Toasting's gentle process improves digestibility. Energy (oil) is retained inside the bean to minimize impact on the rumen.

#4 More...

Now you can get more energy, improved palatability, and better digestibility from corn...

WEAVER'S TOASTED FLAKED CORN
High density energy value for the dairy ration

- Time-tested, controlled hot air process maximizes quality & bin life.
- Toasting starts the digestive process, so rumen microbes access more nutrients.
- **FOR FREE STORAGE** and flexible delivery, try Weaver's Grain Bank system.
