Part I

ATLANTA, GA.
February 28, 2001

Report Supplied By USDA

Midweek trucklot buying interest was light as dealers remained cautious and continued to work on a hand-to-mouth basis. Offerings of boneless skinless breasts were at least adequate to available, and bone-in in breasts ranged adequate to balanced. Wings continued to see strong interest and were clearing well, and boneless-skinless thigh meat was no more than adequate. Movement through retail and distributive channels was only fair, however, foodservice sectors were actively drawing product from the market. The market tone was fully steady to instances firm on wings and boneless-skinless thigh meat, at least steady on the balance.
