

Get the edge on better bales

New John Deere 7 Series Round Balers

Now, you can significantly improve the quality of your hay with the new 7 Series Balers from John Deere. Eight new models make solid bales from 32 to 72 inches in diameter. New MegaWide™ pickup sweeps in the heaviest windrow, while famous John Deere Diamond-Tread belts pack tight, dense bales. Plus, new CoverEdge™ net-wrap gives your hay the ultimate in nutritional value and storage protection.

Unlike conventional monofilament net-wrap which leaves four to five inches on each side unprotected,

CoverEdge net-wrap extends over the sidewall to hold hay from edge-to-edge. It allows air to circulate inside the bale, yet effectively repels rain and moisture, keeping your hay more palatable, and more nutritious.

Don't compromise the feed value of your hay with an ordinary baler. Stop by and ask your John Deere dealer about the new 7 Series Balers and exclusive CoverEdge net wrap today!

JOHN DEERE

Solid. Stable. Still John Deere.
