Super Cash Prices To Put A Quality Case IH Grain Drill to Work from Binkley & Hurst Bros. Today!

A Special Feature For All Case IH Grain Drills

Fluted Roll Feed Cup Assemblies Save Seed and Save Time. A known fact that Case IH die-cast zinc alloy feed cups are superior to other competitive brands. Long life comes from oil-impregnated, molded sintered metal inserts act as a positive bearing surface to surround and support the fluted roll.

Large throat clearance allows the handling of big seeds and prevents seed damage.

Fluted roll is precision-molded and won't freeze up during the idle periods.

Shut-off block is molded of steel and delivers consistent cup to cup seeding accuracy. Exclusive tapered metered edge at the bottom of the feed cup provides unexcelled seeding accuracy, even seed flow, and more uniform spacing.

For replacement parts for your existing drill, buy Case IH quality from our Parts Dept. Now! Precision engineered to fit your grain drill exactly!

And you get more than a precision grain drill. You can count on us for genuine, value-priced parts, professional and reliable service support, and flexible financing.
