On The Mark, Get Set, Grow!

The 6100 Series Rigid And Vertical Fold Planters.

Precision farming starts with precision seed placement. And that's exactly what you'll get with the White 6100 Series planters. Our pull-type planters feature an exclusive air-metering system that's designed to singulate every seed. Its low air pressure, edge-drop seed discs and short, 18" seed drop ensure precise seed placement for maximum germination.

practices both now and in the future. They're built rugged with a massive 7" x 7" frame and strong, welded-tongue design to handle the demands of heavy residue. Add a 6900 splitter attachment for interplant capability.

This season get the planter that places each seed where it'll grow the best — and perform the best. Stop by your AGCO® White Planter dealer today.

Adaptable To Any Tillage Situation.
 Our 4, 6, 8 and 12 row planters have the flexibility to meet most tillage
