Silo Unloader Technology Takes a Giant Leap Forward!

BIG JIM. Quantum SYSTEM

TOWER SILOS REALLY MEASURE UP!

Measure for measure, nothing beats a tower silo for storing forage. Just compare them to bunkers which have up to 45% storage loss, as well as lower capacity, increased labor and equipment costs and considerable inconvenience. Towers lose just 3% to 7% because of gravity, feed weight and a good unloader like the Big Jim QUANTUM System. QUANTUM installs in any type of 20' to 30' forage silo conventional or oxygen limited, and makes your tower silo even better!
