Model 648 Silage Special 4'x5'

Strength and durability are built into every New Holland Roll-Belt™ round baler. Larger chain idler springs to maintain proper tension, beefier bearings for follower rolls and drive rolls, heavy-duty cam-follower bearings in wide pickups, stronger pickup lift cranks, heavy-duty wheel hubs, and long-lasting curved pickup tines - they're just some of the features we've included to make Roll-Belt balers stand the test of time.

B37P Round Bale Wrapper

**See The
in Field
Demo**

Expand your forage production system with a New Holland round bale wrapper. By adding a round bale wrapper to your current haying system, you can put up high-quality forage at a fraction of the cost of traditional silage systems.

Wrapping adapts well to any haying system. Both twine-tied and net-wrapped bales can be wrapped for silage. Along with being a low-cost silage investment, wrapping eliminates a need for shed storage space for your hay.

Model 575 Baler w/72 Thrower

Consistent bale quality
The rotary feeding system, a New Holland exclusive (Models 570, 575, and 580), delivers top capacity and square, uniform bales.

Picking Up Is As Easy As Driving Your NH Tractor

Hook up a New Holland Model 1037 pull-type bale wagon to your tractor and watch how fast the bales come off your fields.
