

That's "Good" Business!

Charles Good began a relationship with Penn Jersey when he purchased his first Harvestore® structure in 1972. His son Glenn continues to this day with five Harvestore structures and a Slurrystore® System. The farms are managed by Glenn's sons Dana and Dean. Recently their livestock program changed and their Slurrystore is to be removed to make room for a new heifer raising barn. The Slurrystore was purchased in 1978, processed over 15 million gallons of livestock waste, and was sold for 48% of its original price!

Dana, Charles, Glenn & Dean Good

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of Engineered Storage Products Co.
