

# NOW IS THE TIME... TO SERVICE YOUR PLANTER!

As the 2001 corn and bean planting season comes to a close, we encourage you to reflect momentarily on your spring planting experience. Does anything come to mind that may require attention before next planting season? Now is the time to deal with any potential problems or worn items before placing your planter in storage

## UPTIME PLANTER SERVICE NOW!

Mr. Planter Owner  
Thank you for taking a minute to consider our services. Binkley & Hurst Bros. Inc. is offering a pre-season inspection and evaluation of your planter for the purpose of identifying worn, broken, or malfunctioning parts. Many times, seemingly insignificant wear will affect the accuracy of your planter more than you realize. If nothing else, it may be time to have your finger pickup meters checked on our test stand. Also, new innovations, attachments and options are constantly being introduced which may be of interest to you for installation on your planter.

Binkley & Hurst parts and service personnel are specifically trained and informed planter specialists, ready to examine your planter with you! If you determine that the planting proficiency of your planter could be improved with our service, we would be happy to provide that service for you, and a technician would return at a later date to assist you in doing the work. We encourage you to be part of the actual servicing so that any pointers or insight, which the technician may have for you with regard to planter operation, could be conveyed at that time.

If you set up an appointment for a planter evaluation, you will be charged a flat fee.

At time of inspection we will recommend to you any item needing attention, also at that time we will remove your seed meters to take in for testing if you so desire.

If you have any questions, please contact the planter service department at 717-626-4705 or 800-414-4705.

Thank you
