SELF-PROPELLED FORAGE HARVESTERS

High quality and high performance in every chop

Super powered and fuel-efficient, John Deere Forage Harvesters help you get the most from every cut. Plus a new larger hydro gives you faster speeds and saves fuel during transport. Check out the new sharpening system on the exclusive Dura Drum™ cutterhead. It lets you sharpen knives in less than three minutes. And it sharpens in reverse, so knives last longer.

Want more capacity? Go with a new 10-row 710 Rotary Harvesting Unit! Or choose from four other row independent headers, two row crop units, or three windrow pickups in sizes to fit every operation.

Get the most from your forage. See us today to learn more. Even better ask for a demonstration.

NEW 3000 SERIES TELEHANDLERS

Take material handling to new heights

Lift more, higher, farther, and faster with the next generation of farm equipment. The all-new John Deere 3000 Series Telehandler gives you the ultimate in versatility and maneuverability. Reach up to 23 feet and lift up to 6,600 pounds. And, simultaneous hydraulic flow speeds up cycle times by letting you perform all functions at once.

Three steering modes will get you in and out of cramped spaces, while the spacious cab offers unmatched visibility. A patented attachment system lets you make fast changeovers from the cab, so you can dig, lift, scoop, sweep anything imaginable! See us today and learn how to take your material handling to new heights.
