"We would use slats again if doing it all over!"

Harold Keeney, David, Nancy & Mark Wolfskull

Our original plan was to install scrapers. But after 10 minutes in a statted barn in Somerset County, we changed our minds. Some people stay away from slats because of the initial cost, but that extra cost is made up for in the first couple years.

The one thing I like the most about slats is that there is no expense. I don't have any scrapers or drive units to maintain. I don't have to run scrapers every day or haul manure like we did in

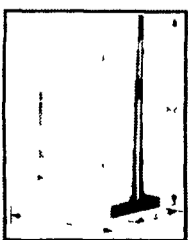

our previous tie stall barn. The cows' foot health has been a lot better, and the cows stay much cleaner. Our milk production is up and the somatic cell count has gone down. I give at least some of the credit to the slats because with less moisture on the floor, there is less bacteria.

-David Wolfskull

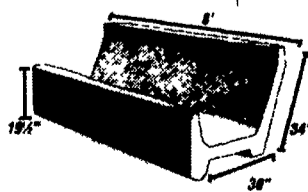

Thank you, Wolfskills, for installing slats

"The answer to the most common question is 'No, there is no build-up.'"

Agricultural Pre-cast Products Available:

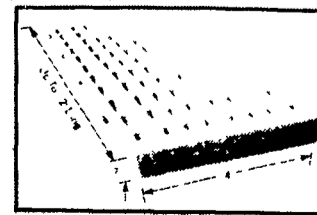

T-wall Bunker Silo
8 & 12 ft. high available

Slant-back J-style Feed Bunker

High Capacity H-style Feed Bunker

Cattle "Waffle Slat"
8000 psi

Keystone Knuckle Beam System
helps support pit wall
(NCRS approved)
