With the Simplicity You Want!

GEHL DELIVERS HIGH SPEED PERFORMANCE AND MORE RELIABILITY, TOO!
 Gehl disc mower conditioners feature a simple drive system with fewer moving parts to power both the cutterbar and conditioning rolls from a single gearcase. New cutterbar design delivers consistent performance in the toughest crops and conditions. Full-width skid shoes and the patented Protectadrive™ system protect cutterbar gears. Disc drive assemblies are individually removable for quick servicing. Wider rolls provide more consistent conditioning while Gehl's unique forming chamber delivers fast-drying higher-standing, fluffier windrows or full-width swaths.

PROVEN PERFORMER

Scavenger® Spreader

Gehl's Scavenger® Spreader delivers the performance you need year after year, with increased durability and outstanding application control. All thanks to the following features.

- **Heavy-duty round core auger** with segmented paddles to blend manure. Powered both up and down to ram through heavy loads and break up bridging.
- **Special "V" tank design** to handle solid, heavy bedded, semi-solid, self-leveling and liquid manure.
- **Adjustable auger and expeller speeds** spread more types of manure.
- **Variflow™ discharge** featuring square-tooth expeller paddles for smooth, even spreading at the rate you choose.
- **Improved drive system** with heavier final drive chains and enhanced idler system.
