

“We were impressed with the improvements!”

**John Landis
Landyshade Farm
Lancaster, PA**

John Landis erected his first Harvestore® structure in 1966. Recently John and his son John updated their equipment with a new 25-ft. state-of-the-art high-speed Alliance® unloader with internal chain lubrication system.

John Landis and son John

Both John and his son were impressed with the improvements in the Alliance when compared to their old Goliath unloader. Some of the improvements that caught their attention included the Sentry Arm Control System, the thicker steel housing, increased ratchet engagement, the Marathon full round stainless steel bushed cutter chain with new chisel-tip cutter hooks and the motor load indicator.

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of Engineered Storage Products Co.
