WOLF Heavy Duty Skid Loader Plows
Trip Cutting Edge Design
The SnowWolf Ultra fea-
tures a trip cutting edge
design which allows full
down pressure for incredible scraping ability in forward
or backdragging situations. It eliminates "false tripping"
from snow load and will only engage if you actually
strike an immovable object.

Massive Construction
The SnowWolf Ultra is designed to take abuse from the
largest skid loaders. At approximately 100 pounds per
foot of plowing width, you know the Ultra means busi-
ness.

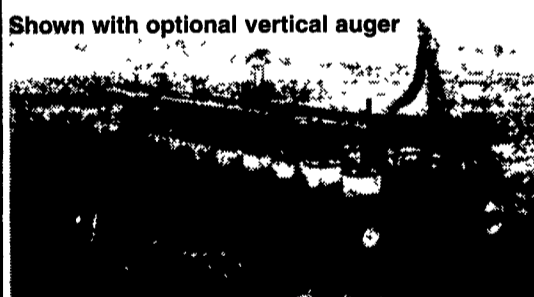

Food for Thought
Did you know that a modern skid loader with a high
speed transmission and a SnowWolf Ultra will outplow a
pickup truck under most plowing conditions? A cleaner
job, closer to the obstacles (without worrying about your
fenders), and more acres plowed in the same amount of
time!

WRAPPED BALE GRABBER

**QUICK ATTACH FOR YOUR SKID LOADER
POW-R-PUSH**

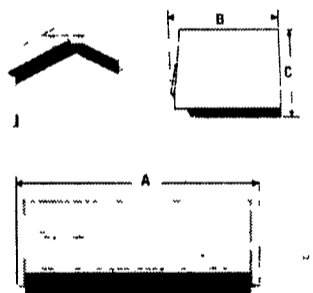

FEATURES & BENEFITS

- Good operator visibility
- Mounts to universal hitch skid-steer loaders to push light material
- Various applications such as moving snow, manure, flood clean-up or any light cleanup on blacktop, sealed concrete or any surface where you want to avoid surface damage
- Available in 8' and 10' blade widths
- Blade widths cover most wheel bases of skid steer loaders
- Deep reinforced & braced wings allow the operator to push more material without side spillage
- Non-slip surface on top for easy access into the skid-steer
- Heavy duty 1/4" steel plate construction
- High density rubber reversible cutting edge for all surfaces, 1" thick with 7" of wear
- Optional abrasion resistant steel scraping edge and skid shoes available

 - Standard highway light package.
 - Optional folding 18-inch conveyor extension.

ZONE-TILLER[®] ATTACHMENT

For JD 7000, 7200, and 1750
Standard and Conservation
Planter

For Kinze 2000
Single Frame Planter

Features and Benefits

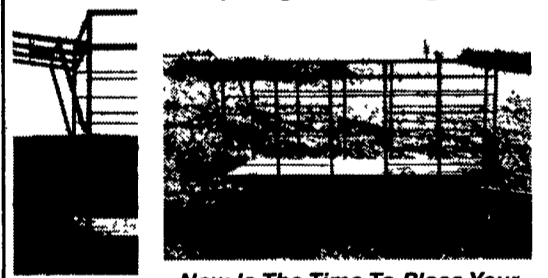

- The Zone-Tiller attachment easily converts JD 7000, 7200, 1750, and Kinze 2000 single-frame planters to a complete one-pass tillage and planting implement
- The flexibility of the unit allows the producer to use either Zone-Tillage or conservation tillage practices, even from field-to-field
- Heavy-duty steel frame mounts directly to the planter mainframe resulting in a compact design for optimum durability and maneuverability
- Coulters provide 30% more down pressure than conventional coulters for penetration into hard soils
- On-the-go, independent, hydraulic coulters depth control with parallel linkage for uniform soil penetration

**IN STOCK! 6 Row x 30 Zone Tiller
for your Planter (NE 8551)**
