Farming Forecast

Sunshine will give way to clouds Sunday as a storm system approaches. There may be a bit of snow or flurries Sunday night or early Monday morning. It will remain chilly over the next few days with highs in the upper 30s. There does not appear to be any chance for significant precipitation, be it rain, ice or snow, for the next several days.

Regional Forecast

Shown is Sunday's weather. Temperatures are highs and lows for the day.

IT'S ABOUT TIME To Frost Seed Alice White Clover

Alice is a tall large leafed white clover developed for exceptional yields of palatable high quality forage. Alice clover has shown tremendous nitrogen fixing benefits for the grass (especially ryegrass) that grows with it. We've had many comments that the pastures with Alice stay green longer into the summer. Alice has greater stolon density than most ladino type clovers allowing for better persistence under grazing. Recent studies show an increased dry matter intake of 2 pounds per cow per day if clover is included in the pasture.

ORGANIC FARMERS!! BE SURE TO HAVE PLENTY OF ALICE IN YOUR PASTURES TO MAKE NITROGEN.
