Farming Forecast

Sunday will bring clouds and mild temperatures but also a chance for some rain as a storm system will cross the area. For Monday, it will be windy and colder but clouds will break up for some sunshine. Then there will be plenty of sunshine for most of the new week with colder temperatures. Another chance of precipitation will be in the area toward the end of the week.

IT'S ABOUT TIME To Frost Seed Alice White Clover

Alice is a medium-tall large leafed white clover developed for exceptional yields of palatable high quality forage. Alice clover has shown tremendous nitrogen fixing benefits for the grass (especially ryegrass) that grows with it. We've had many comments that the pastures with Alice stay green longer into the summer. Alice has greater stolon density than most ladino type clovers allowing for better persistence under grazing. Recent studies show an increased dry matter intake of 2 pounds per cow per day if clover is included in the pasture.

ORGANIC FARMERS!! BE SURE TO HAVE PLENTY OF ALICE IN YOUR PASTURES TO MAKE NITROGEN.
