

“I didn't like seeing my husband hauling manure every day!”

Gloria Kaufman
Friedens, PA

Allen shares a few of the reasons he chose a Slurrystore System to manage his livestock waste:

“NRCS wasn't sure any other system would work. With a Slurrystore System, we were able to put up a smaller diameter tank and locate it close to the stream. Penn Jersey was the only contractor involved and I felt they knew what they were doing. With any other system, I would have had to use several subcontractors. Penn Jersey did an excellent job building my Slurrystore. Everything was done exactly the way I wanted it.”

Allen and Gloria Kaufman had a new 48 x 23 Slurrystore® System installed last November.
